An incomplete survey by the Red Cross places the crop damage in Baldwin, Jones, Butts, Putnam, Spalding, Fayette, Coweta, Monroe and Jasper counties at not less than \$200,000, not including damage to buildings and forests. The relief work in these counties is being carried on by the Red Cross, assisted hy the government extension service.

A truckload of seed suitable for gardens and for small truck farms will be distributed today and the Red Cross later will carry on its canning campaign in the nine counties, Mr. Crane said. The seed are given free to farmers upon application to, and approval by, the extension service.

MOSCOW, May 16.—(P)—President Roosevelt's peace message strengthened hopes in soviet circles today that it may be the first step toward formal recognition of Russia by the United States.

It was considered certain that Mr. Roosevelt's proposal for a world nonaggression agreement will appeal strongly to the soviet government, which feared for the safety of its Far Eastern border since the Japanese occupation of Manchuria.

Moscow is without important afternoon newspapers so the message is not being published here until tomorrow morning.

to fix the amount of his loss so he could deduct it from his income tax, and he never, at any place or any time, will deny it."

"Every man who is an honest and decent citizen," the attorney explained, "uses every possible legal means of reducing the tax he is called upon to pay the government. A moral right from every point of view is that when a citizen actually suffers a loss, for the purpose of recording the loss he may sell any security which will record the loss."

Mitchell was advised by eminent authority. Steuer continued, that his sale of 18,300 shares of stock to Mrs. Mitchell was bons fide and legal "and the only question is, Did the government lose one cent?"

"The obvious answer," Steuer said, "is no."

"Is no."
"This never was a real sale," United States Attorney George Z. Medalie had said in describing the action. "It was for the sole purpose of deceiving the government."
Medalie said that \$152 worth of transfer stamps had been omitted from the letter by which Mitchell claims he conveyed the securities.
"To: the sake of \$152." States re-

conveyed the securities.

"For the sake of \$152," Steuer replied, "the government would have you believe that these thieves who wanted to rob the government left the stamps off. Well, the tax expert who advised Mr. Mitchell told him the document would require stamps, and it was an overlight that they were off.

"Four years later this is to be made an excuse for damning Mr. Mitchell. The legitimacy of that transfer was not affected in the slightest degree."

The testimony, given by Addison G. FREE FOR 12 YEARS. HOPES FOR PARDON

FORT WORTH, Texas, May 16.—

(P)—Hoping that his clear record of 12 years would bring about a pardon R. V. Mallory, 33, escaped convict from the Alabama penitentiary, sat in a cell at city jail today and blamed strong drink for his trouble.

It was liquor, he said, that prompted him to steal an automobile back in 1921, an offense for which he was sentenced to 21-2 years' imprisonment. And it was liquor that brought about his arrest yesterday at Lake Worth after he had picked up an automobile jack from the road and had taken some rusty pipe from a Lake Worth camp that had been destroyed by fire.

Meanwhile his employer expressed confidence in Mallory and promised to give back his job if he receives clemency in Alabama.

He was made a trusty in the Alabama penitentiary and after two months and 26 days of servitude walked away from the walls one day in company with another prisoner.

Finally he found himself in Fort Worth, applied at an employment agency and secured a job with an electricial firm. That was 10 years ago. He has been with the same firm ever since and has become a proficient electrician.

It was learned that Wallace believes that 10,000,000 acres of cotton should be taken out of production this year but that he is uncertain as to how much can be done because of the lateness of the season.

Those attending the conference with Peck included U. B. Blalock, of New Orleans, representing the American Cotton Co-operative Association; Will Clayton, of New Orleans and New York, a cotton broker; Dr. Tait Butler of the Progressive Farmer, Raligion.

The first result of the farm adjustment act, a trade agreement free from anti-trust law prohibitions, meared formal approval today when Secretary Wallace agreed to conduct a public hearing on June 1, or before, on a plan covering the price and supply of fluid milk for the Chicago area.

His decision came after representatives or processors and producers, responsible for about 90 per cent of the supply, reached an agreement and immediately submitted it to Wallace agreed to conduct a public hearing on June 1, or before, on a plan covering the price and supply of fluid milk for the Chicago area.

Service and the Popular

WHY does stale gas give less mileage? Why does stale gas mean more knock?

Because the highly-volatile "light ends"-the most important parts of gas-have evaporated.

New R-D-R process insures FRESHNESS in Gulf

Only fresh gas gives you these important "light ends." And Gulf Gas is always fresh. Gulf's highspeed delivery system rushes fresh Gulf gas to the pumps. And that gas stays fresh longer, due to Gulf's exclusive R-D-R process-a process that actually delays deterioration.

Try a tankful of fresh Gulf Gas. It doesn't cost a penny more. See if you don't get a more powerful, a smoother running motor.

5 important facts about fresh gas

On the basis of months of experiments made independently by a famous Chemical Laboratory, Gulf offers these findings to motorists.

Georgia's History of 200 Years Will Be Re-enacted Here Friday

The cavalcade of 200 years of Georgia's progress and accomplishment will be unfolded in a brilliant dance drama by more than 2,000 Atlanta school children Friday afternoon in the green setting of the Georgia Bicentennial Memorial park, in one of the most pretentious pageants ever unfolded. Several thousand persons are expected to be seated around the arena just off North Side drive at Howell Mill road.

at the pageant Friday.

Scheduled to begin at 4 o'clock, the pageant will move swiftly. Elementary school children dressed as elves will troop from the tall pines bringing the 'Heirs of All the Ages,' title of the drama, the heritage of great men and women. Costumes will be lavish and direction of the danee will be under Dorothy Alexander, well-known Atlanta dancer, and Miss Hattle Rainwater, supervisor of elementary science in the schools.

Indicately from Atlanta. He is one of the founders of the National Association for the Advancement of Colored Peple, and has been a truster of Atlanta University for 18 Associates of Hershaw have already presented him with a brief case and an engraved fountain pen. Judge John McPhaul, of the land office, paid high tribute to Hershaw's long and faithful service to the department.

The celebration in connection with honoring famous men and women of Georgia was conceived by Dr. Willis A. Sutton, superintendent of Atlanta public schools. His suggestion was that school children of the present and future plant trees in honor of the state's famous dead, several of whom will have trees named for them at the pageant Friday.

CAMEL'S COSTLIER TOBACCOS TASTE BETTER

Time and again I am told-by my own organization and by others-that I penalize myself by quality.

Friendly critics protest our putting into the Ford V-8 what they call "twenty-year steel." They say such quality is not necessary; the public does not expect it; and that the public does not know the difference anyway.

But I know the difference. I know that the car a man sees is not the car he drives the car which the engineer sees. The car which is seen, comprises beauty of design, color and attractive accessories, -- all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment given to safety factors; the steady development of comfort, convenience and

economy. These make the car. A car can be built that will last two or three years. But we have never built one. We want the basic/material of our car to be as dependable the day it is discarded as the day it is bought. Ford cars built 15 years ago are still on the road. It costs more to build a durable car-but two items we do not skimp are cost and conscience. A great many things could "get by"-the public would never know the difference. But we would know.

The new Ford V-8 is a car that I endorse without any hesitancy. I know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

I readily say this in an advertisement because I know the car will back it up.

ROAD WORK FOR CONVICTS.

The suggestion that the counties of the state put their convicts to work on the roads instead of calling on the state prison commission to take them over, as is being done by many counties, is worthy of serious consideration.

Not only should the county authorities put these convicts to work on the roads, but the state highway department should make use of them. While convict labor cannot be used in the paving process of roads, for which part of the money comes from federal aid funds, there is no reason why the necessary grading and other preliminary work should not be done by

In lateral roads, for which federal aid is not available, there is no reason why the entire labor, from the grading to the finished paving, should not be performed by the state's convicts.

Even on government-aid roads, all of the necessary grading can be done by state and county convicts, confining the government contribution only to surfacing. The grading of a highway is, in many instances, the most expensive part of the improvement. There is not an unfinished link in the government highway system in Georgia the grading of which could not be completely finished before federal aid is asked. That would make the government aid funds go that much

ELECTRICITY MARCHES ON.

The interesting prediction is the magazine Fortune, that the passing of the depression will mark the beginning of a period in which the whole continent will be yoked into one super-electrical machine, a situation which will lead to "the oncoming of a new kind of civilization altogether."

The writer sees in the pending electrification of industry the creation of a world "replete with more freedom and happiness than mankind has ever known," and feels that the only way in which the by stealing his stuff, why do others coming of this millennium can be who steal their stuff remain unstopped would be "by the brute known? calims of an obsolete financial system."

Text of Roosevelt's Message **UrgingNationsToKeepPeace**

WASHINGTON, May 16 .- (AP)-The text of President Roosevelt's

A profound hope of the people of my country impels me, as the head of their government, to address you and, through you, the people of your nation. This hope is that peace may be assured through practical measures of disarmament and that all of us may carry to victory our common struggle against economic

To these ends the nations have called two great world conferences. The happiness, the prosperity and the very lives of the men, women and children who inhabit the whole world are bound up in the decisions which their governments will make in the near future. The improvement of social conditions, the preservation of individual human rights, and the furtherance of social justice are dependent upon these decisions.

The world economic conference.

dependent upon these decisions.

The world economic conference will meet soon and must come to its conclusions quickly. The world cannot await deliberations long drawn out. The conference must establishorder in place of the present chaos by a stabilization of currencies, by freeing the flow of world trade, and hy international action to raise price levels. It must, in short, supplement individual domestic programs for economic recovery, by wise and considered international action.

The disarmament conference has

sidered international action.

The disarmament conference has labored for more than a year and, as yet, has been unable to reach satisfactory conclusions. Confused purposes still clash dangerously. Our duty-lies in the direction of bringing practical results through concerted action based upon the greatest good to the greatest number. Before the imperative call of this great duty, petty obstacles must be swept away and petty aims forgotten. A selfish victory is always destined to be an ultimate defeat. The furtherance of durable peace for our generation in every part of the world is the only goal worthy of our best efforts.

If we ask what are the reasons for armaments, which, in spite of the lessons and tragedies of the World War, are today a greater burden on the peoples of the earth than ever before, it becomes clear that the test of the satisfactory.

There is justification for this fear. There is justification for this fear. Modern weapons of offense are vastly stronger than modern weapons of defense. If all nations will agree wholly to the weapons which make possible a successful attack, defenses automat-ically will become impregnable, and the frontiers and independence of every nation will become secure.

The ultimate objective of the disarmament conference must be the complete elimination of all offensive weapons. The immediate objective acapons. The immediate objective is a substantial reduction of some of these weapons and the elimination of many others.

of its personnel are yet to be decided.

The message brought forth an everincreasing train of considerations affecting vitally American foreign policy and the relations of this nation with its neighbors.

It proposed that the nations not only should limit their arms and abandon those that are used for offensive purposes but should "agree that they will send no armed force of whatsoever nature across their frontiers."

The message was seen in official quarters as striking at the roots of strife in the far east, of open war in South America and of forebodings of another and even more awful conflagration in Europe arising from dissatisfaction with the Versailles treaty.

In proposing that no armed forces be sent beyond frontiers, it would commit the United States against sending marines to Latin American nations as has been done in the past.

Telling congress of the action he had taken, the president in a special message said "the assurance of world political and economic peace and stability is threatened by selfish and abort-sighted policies, actions and threats of actions."

"It is high time for us and for every other nation to understand the simple fact," said the message, that the invasion of any nation, or the destruction of a national sovereignty, can be prevented only by the complete elimination of the weapons that make such a course possible today."

To that end he urged the abolition of the powerful weapons of attacks under the arms plan proposed by Prime Minister Ramsay MacDonald, of Great Britain, and under discussion at Geneva when German objections last week forced a recess.

The four definite points which the president urged were these:
Elimination of the weapons of offense, the importance of immediate action, that while these steps are being taken, no nation shall increase its armaments above treaty limits, and finally that during this disarmament period no nation shall send its armed forces across its own frontiers.

These injunctions were promptly interpreted by Speaker Rainey of the house and others as aimed in part at Germany. The speaker said the measure of success without taking Russia into consideration.

Atlanta's Three Rookie Stars Glitter in May Sunshine

'Atlanta's three rookie stars are glittering with a real bril-

liance in the afternoon suns of May.

Hans (Little Hands) Kleinhans, who looks like one of the greatest left-handed pitching finds in years; Freddie Sington, the hitting and fielding sensation, and Duck McKee, who is coming forward at the plate and improving his fielding each day, make up a trio of young players who will equal any three uncovered by the baseball prospectors this season.

As the testing days go on the Cracker rookies be-gin to cast longer shadows than others about the league. "Orry" Armbrust, the Memphis sensation, for instance, was knocked out yesterday. Kleinhans is gaining confidence and ability. He struck out 11 men in Memphis last week to win there. And yesterday he

beat Memphis again. Memphis put the pressure on McKee in the second game Tuesday, walking two men to get to him. He came through with the winning blow. His hitting in the first game was great. His excellent play is done in an inconspicuous manner. Not a great deal of attention has been focused on him. Yet it would not be surprising were the end of the season to find him one of the players the scouts are most interested in.

Sington did his part in winning the two games from Memphis Tuesday. He took a very large part in the rallies in the first game, one of which brought the Crackers from a point four games behind to a tie. And another one won the ball game.

Max Butcher, another recruit player, is also pitching good baseball. His improvement, also, has been consistent. He and Kleinhans have done most of the good pitching this spring. The veteran players may be expected to set a faster pace

now that warm weather has come. At any rate, it has been a pleasure to have the Crackers come through. The confidence in this corner has never waned.

PHILLIPS, THE INSOUCIANT.

While the boys were batting balls to the bosky fringes of Ponce de Leon park yesterday afternoon in taking the first game from the Memphis Chickasaws, there was quite a lot of comment on the machinelike ease with which Eddie Phillips was doing the Crackers' catching job.

The Crackers have had so many mountebanks as atchers in past years that a receiving job such as Eddie Phillips is doing should excite the populace to mad cheers. Yet such is the insouciant style of his performance that a really great job of catching is going along getting a comparatively calm reception.

Unless memory does me wrong, he has yet to have a base stolen on him in the local lot. Yet he makes it all seem so easy that there are few cheers when he shoots down a man at second. Time was when a Cracker catcher could bring on a mild attack of delirium among the occupants of the stands by tossing out a runner.

But Eddie Phillips simply eases up from his squatting position, flings his arm forward and the man is

bright sunshine, and ended almost after nightfall.

After three hours and 24 minutes of baseball, in which almost everything happened, Joe Kuhel, Senator first baseman, stepped up to the plate with the bases loaded to push a clean single through the pitcher's box and bring across the winning run.

Kuhel was the batting hero of the day. His five hits included a home run over the right-field fence in addition to a triple.

After the third inning, Washington fans began to relax behind au apparently safe six-run lead. But the

They disposed in order of Pitchers Stewart, Burke and Weaver, and when Russell finally retired the side in the eighth, Cleveland enjoyed a two-run lead. Vosmik's fourth hit of the day, coupled with single by Kamm and Averill, two bases on balls and a costly error by Goslin, gave the Indians three runs in the eighth alone.

McAfee and Crowder held Cleveland hitless during the remaining four innings, but as the game ended the last available Washington hurler, Earl Whitehill, was in the bullpen warming up for service.

Cecil Travis, hurriedly recalled from Washington's Chattanooga farm to play third base, turned in two of the most brilliant fielding plays of the game in addition to producing five singles and reaching first by the

Steinborn, who has been pinning them with regularity and showing more wrestling skill than ever before, accepted 'the match here with alacrity when several other wrestlers sought by Henry Weber, matchmaker, had refused.

It so happens that the last several victims of the strong man's skill have been Greek wrestlers. And when he learned that Zaharias was after a match he said. "One Greek or another, they all look alike to me."

Zaharias, always a great card, has not appeared here in some time. Weber is seeking a good semi-wimby pard which is to be announced today providing wires of acceptance arrives. "I have been trying to get Zaharias back here," he said, "and I wanted to line up a real foe for him. Steinborn is as strong as the big boy and he is surprising all the fans with his improved wrestling. He isn't just strong now. He is a wrestler in addition."

The fans all go to see him lose. He rarely does. The sentiment will be with Steinborn on the Zaharian match although the German strong man is not too popular himself.

Weber did not show this week because of the inability to obtain what he considered a high class card.

on Carl Reynolds' single to left. The Browns made their winning tally off Bob Kline, who relieved Lloyd Brown, former St. Louis southpaw, when the Browns tied the score at 2-all in the eighth. With the bases filled, Brown forced over the tying run by passing Bruce Campbell.

St. Louis started the scoring in the sixth on Ted Gullig's pass, Irving Burns' sacrifice and Oscar Melillo's single to right field. The Sox gained the lead in the seventh by pushing over two runs on Irving Hadley's pass to Manager Marty McManus, Brown's neat bunt and two-baggers by Tom Oliver and Roy Johnson.

Hadley was touched for nine hits by the Red Sox. Brown appeared to be on the way to victory until his eighth-inning let-down. Atlanta Takes Games, 8-5 and 3-2 To Open Series.

By Jimmy Jones.

"Give a man a horse he can ride." goes the song. And if you'll give the Atlanta Crackers pretty fair pitching, they're still capable of jousting with the giants in this Southern league race of 1933.

Andy Messenger and Theodore Kleinhans weathered some rather menacing squalls yesterday in the double header with the Memphis Chickasaws and their mates rode through the storm behind them, played the pluckiest kind of ball and trounced the league leaders in a spectacular double-header victory, 8 to 5 and 3 to 2.

As if determined to reward the

As if determined to reward the splendid crowd of 5,000 fans, including 3,305 paid admissions and 1,283 ladies who saw the games, the Crackers fought it out down the stretch with the clubbing Chickasaws in a pair of finishes that would have rivalled a whole paddock full of Broker's Tips and Head Plays.

PROTHRO HURT.

Broker's Tips and Head Flays.

PROTHRO HURT.

Everything in the book in the way of nervy and inspiring playing was given the fans by the Crackers as if in recompense for the Nashville massacre of last Saturday and the first game fiasco in Birmingham Sunday. And there was one chapter, which everyone would have been glad to have seen omitted when Doc Prothro, the courageous skipper of the Chickasaws was carried off the field in the fifth inning of the second game after being hit in the head by one of Ted Kleinhans' smoke balls which got away from him.

Prothro was given a tremendous ovation as he was borne away unconscious and there was no one sorrier about it all than Kleinhans, who did not have his customary good control and couldn't well gauge where the ball was going. Frank Brazill took over the leadership of the Chicks, Granger, a pitcher, going to left field and Chiozza coming in to play third. The crowd gasped as Prothro collapsed limp and still when the pitch struck him squarely on the back of the head and players gathered around him. While an early examination reported no concussion or fracture, the Chick chieftain will be out of the

After that unfortunate incident, Kleinhans showed his mettle by sticking in there and pitching the game out. It was not a dustoff pitch that felled Prothro, but simply a wild one that got away.

GOOD PITCHING.

For six innings Jimmy Nicholson, of Georgia, and Percy Dixon, Oglethorpe left-hander, pitched superbaseball, even though Oglethorpe scored three runs and the Bulldogs one during that time. Dixon, during these first inning ways Georgia hat those first innings, gave Georgia bat-ters but one safe blow, a double by Moore in the fourth. Georgia's run came as the result of a base on balls and two Petrel errors.

Seven Hits.

ATHENS. Ga., May 16.—The laurel wreath of the state baseball championship rested upon the brows of the Georgia Bulldogs tonight as the result of a 7-4 victory over Oglethorpe at Sanford field this afternoon in a game replete with errors and featured by the fine pitching of the two opposing hurlers.

Today's game broke a deadlock that had existed between the Bulldogs and the Petrels in the state standings. Georgia's record against Oglethorpe and Tech includes six victories and three defeats. Oglethorpe has won five games and lost four, three of them to Georgia.

The Bulldogs are now monarchs of all they survey from the red clay hills which surround Athens. Georgia enhed the Southeastern conference championship by defeating Techhere two weeks ago. Coach Bill White, closing his thirteenth season as Georgia coach, can well be proud of his Bulldogs, champions of Georgia and the Southeastern conference, and Georgia can boast of Bill White, who has had winning teams for 13

every catch and throw was agony.

His cup of bad luck sloshed over when he was struck by the pitched ball. None regretted it more than Kleinhans, the man who threw it. It was, of course, not a "bean ball" thrown with the intent to dust off the Memphis manager.

The afternoon was a bit dark and Kleinhans was employing often a high, fast one. It was one of these which caught Prothro. Kleinhans was a bit wild and this made it all the more difficult for batters to judge his pitches.

Nicholson, on the other hand, was doing right well himself. He scattered three base hits over as many innings. Oglethorpe's three runs in the third scored on two errors by Flip Costa. The slender right-hander, playing his last game for Georgia, was in there fighting. The two pitchers were having a real duel, even though the errors were making things tough.

Prothro will be out of the game for a few days. He should never have been in the game yesterday. The Memphis club will need all its punch to conserve the slight lead it has. Atlanta fans, always quick to applaud the game sportsman, will applaud Doc Prothro and wish him well. He merits it.

She had a neat pair of scissors and the scraps of paper were falling thick and fast. It's quite a fad which can displace the movie hero.

THE BEST BASEBALL CITY.

More than 5,000 fans saw Tuesday's Cracker games. It was ladies' day and, in addition to the hundreds of ladies present, there were nearly 4,000 men who paid. (Who said it is the woman who pays?) And this was on an early week day to see a sixth-place club. There isn't any argument as to the best baseball city. It's Atlanta.

Giants Take Opener of West Invasion.

CHICAGO, May 16 .- (AP)-Carl Hubbell, southpaw pitching ace of the Giants, turned in his fifth victory 8, and remain in the running for the of the season today as New York North Georgia Interscholastic conferopened an invasion of the west with ence baseball title. Decatur plays Fula 4-to-1 triumph over the Chicago ton Friday for the crown.

Hubbell yielded eight hits, two muster off a trio of Cub pitchers, but final round. he was invincible with men on the bases. In addition he walked only one while the Giants drew six passes from Pat Maione, who started the game, and his two successors, Bud Tinning and Guy Bush.

Three of the passes, issued in succession by Malone in the first inning, followed two scratch singles and forced two runs across the plate. The two tallies sent Malone to the showers and gave the New York southpaw a working margin, which he never relinquished.

Tinning and Bush allowed the Giants only four singles in the re-maining eight and two-thirds innings but in the fifth and ninth innings the Giants' lead-off man walked and then

scored.

The Cubs' run, which prevented Hubbell from winning his fourth shutout of the season, was the fault of the pitcher himself. After Jurges opened the seventh inning with a single Hubbell threw Taylor's grounder wild in trying for a force play at second. Two infield outs pushed Jurges across the plate.

A doctor examined Prothro last night and ordered him to remain in bed a couple of days with ice packs on the bruise. There was no evidence of fracture, but an X-ray will be made today. Prothro stated last night that he felt very good and anticipated no serious trouble. Many Atlanta fans and friends of the popular Memphis manager phoned The Constitution to inquire of the extent of his injury. He was given a great ovation as he was taken from the field by players in the fifth inning yesterday.

Prothro only recently entered the Chicks' lineup. Chiozzo, an outfielder, will play in his place today, if Culbreth does not arrive in time.

That game saw Orville Armbrust, sensational young right-handed rookie of the Chicks, taste defeat for the first time this season. The sandlotter from Little Rock had won five straight up until the seasoned Messenger beat him.

until the seasoned Messenger beat him.

There also was a nifty brush between Manager Charley Moore, of the Crackers, and Umpire Steamboat Johnson over a play on Bonowitz at third base in the second inning that got the crowd and the team in a first-class fighting mood. Bonowitz had singled and was trying to take third on McKee's single to right. He slid under Prothro's tag, but the Steamer dashed over and called him out. nodding his head vigorously as he did so.

Red Rollings sliced a double down the left field lines as a leadoff and Fred Sington punched a single through short to score him. Bonowitz sacrificed Freddy to second on a good play by Prothro. McKee beat out a hit to second when Brazill hesitated to make a play and then Ed Phillips and Susko followed with successive doubles. netting three more runs. That by Phillips drove in Sington and McKee, Skipper Moore giving a heady display of coaching at third by running McKee home on the short hit into left center.

Susko's hit, a slashing double past Reese at first, knocked in Phillips with the tieing run. The Crackers stepped into the lead in the sixth. McKee, who equalled Red Rollins' performance with three hits in the first game, doubled to right after Prothro had tossed out Bonowitz; Phillips fanned, but Susko lined a double to center to score McKee. Billy Bayne, who had a great year with Chattanooga in this league a few seasons back, opposed Kleinhans for the second time in two weeks in the nightcap and for the second time lost the decision. Billy was in a tough spot in the seventh with Chatham on third, the score tied at 2-all, and three hitters like Sington, Bonowitz and McKee coming up. He elected to play the percentages by passing the play the percentages by passing the two right-handed hitters to get to Mc-Kee, and he came close to being right at that, since it was just a question of Chatham scoring. Kenfield, mild-mannered but firm enough to bench his No. 1 player in 1930 on the eve of the state tournament, never won a major title in his days of competition. His nearest approach was a doubles semi-finalists in the national clay courts championship of 1920.

He mentions the number of available tennis courts, the long playing seasons, good material and the faithful work of players as reasons for his success but says not a word about his coaching.

Neither does he mention that despite his smallness, five feet six, and age, nearing 40, he can take to the court and hold his own with the best

Frederick Returns To National Lead

By the Associated Press. Johnny Frederick, of Brooklyn, stag-ed a comeback into the Big Six yes-terday, smacking four hits in five times up against the Cardinals and just failing by one point to recap-ture the National league hitting lead Fort The Chicks were off to a two-run lead in the first inning on Hamel's single to center and Chiozza's triple. The latter scored on Frank Brazill's long fly to right. Messenger set them down in the second, but in the third Hamel walked and Brazill crashed a home run behind the second layer of signs in right for two more.

That got the Crackers stirred with the first inning to the third. Red provided the first inning to the second layer of signs in right for two more.

DIXON BEATEN BY BULLDOGS

Since John Kenfield came here as coach in 1928 from the Lakeshore Country Club at Glencoe, Ill., the Tarheel racqueteers have won 76 matches, tied one and lost only two. In addition, the competition has been against the best colleges the south and east have to offer.

Georgia Tech beat the Tarheel tennis team in 1928 and in 1929 Princeton turned the trick. For the last four years the court team has been undefeated and the only tie was by Tulane in 1930.

Team honors are not all that have come to Kenfield's players. Bryan Grant, of Atlanta, Ga., national clay courts champion in 1930 and runnerup in the national intercollegiate last year, is one of the nation's ranking tennis players.

Wilmer Hines, of Columbia, S. C., former national junior champion, holds the Southern conference singles title and shares the conference doubles title with a teammate, Lenoir Wright, of Charlotte.

this year would be half of what it was in 1932.

The road board chairman did not refer directly to Governor Talmadge, with whom the commissioners have been disputing the highway department budget, but he did speak of "charges of extravagance and inefficiency," which he said "have been indulged in quite freely."

"The board realizes that in the vast amount of work being done and the huge expenditures being made that some short-comings may be expected," he said. "It has been our earnest endeavor to reduce these happenings to a minimum and we look with pride upon our accomplishments in this respect."

The highway department expects approximately \$8,000,000 for 1933, Barnett said. He pointed out that outstanding contracts, maintenance and administration will absorb a large part of the revenue, leaving only a small amount available for contract work.

The highway department expects approximately \$8,000,000 for 1933, Barnett said. He pointed out that outstanding contracts, maintenance and administration will sbooth a large pear of the revenue, leaving only a smell amount available for contract work.

The president of the county commissioners association, M. W. Tift, of Albany, was applauded when he said that "to rescind the contracts for road construction already given Georgia counties would be a crime. If Dougherty county loses the contracts it has, every felony convicts we have will go back to the prison commission as fast as trains can carry them. The counties can mo longer maintain their felony convicts unless they receive aid from the highway board in the form of road construction contracts."

Referring indirectly to the Talmadge-highway board situation, Tift said the situation is charged with dynamite and urged the commissioners to "be most careful in your every utterance and action."

The commissioners also applauded when J. Frank Pittman, of Thomes county, chairman of the executive committee of the organization, said "if I had the power I would put this association on record as backing the highway board 200 per cent."

Counties that reduce their advalorem tax levies so that they may pay less ad valorem taxes to the state "are cutting their own throats," Paul Doyal, chairman of the state revenue commission, said. Doyal added that only 14 counties pay into the state, more than they get back.

Institute Speaker Advocates Unemployment Insurance To Safeguard Workers.

ATHENS. Ga., May 16.—Frotection in the form of unemployment inaurance or a dismissal wage should be given workers when squeezed out of an industry by technical or managerial changes and when they have difficulty in getting new positions. Dr. Paul H. Douglas, of the University of Chicago, told the institute of public affairs at the University of Georgia tonight.

This principle should be applied to the railroads if the present railway follow the administration's program of having each industry plan its production.

An increase in productivity, Mr. Douglas said, is commonly thought to throw men out of work. It will not do so if prices are lowered and the demand responds sufficiently so that the workers can be reabsorbed in the same industry. In the case of industries are coal and agriculture, workers will be forced out of their old industries. If the banking system works smoothly, however, they should be re-employed in new industries as a result of the released purchasing power of consumers which will be directed to new products.

The truth seems to be, he said, that while there has been some technological unemployment, the main tendency call unemployment, the main tendency call unemployment of the main tendency call unemployment, the main tendency call unemployment, the main tendency call unemployment to the main tendency call unemployment the main tendency call unemployment, the main tendency call unemployment to the main tendency call unemployment to the main tendency call unemployment, the main tendency call unemployment to the main tendency call unemployment to the main tendency call unemployment to the main

The truth seems to be, he said, that while there has been some technological unemployment, the main tendency has been that of shifts in employment. There has been a general shift into service and white collar industries which from having one-quarter of the gainfully employed in 1870 had come to have one-half in 1930.

Mr. Douglas' talk concluded the 1933 session of the institute.

the plans for the support of the educational program.

The president of the University of Georgia referred to the action of the georgia board of regents recently in making sweeping changes in the university system with this statement:

Sooner or later the same problems which now confront the regents of the university system of Georgia will confront the administrative board of every other state. He said that while there would be hardships upon some persons as a result of these reorganizations, the hardships should not be allowed to prevent the necessary changes from being effected.

DESIGNED FOR LARGER SIZES.

Pattern 2636.

What is the smart way for the matron with a "not-too-slender" figure to achieve the coveted silhouette of the new mode? The secret is told in today's sketch—to wear only those lines that flatter and slenderize and to choose only those prints that will not accentuate fullness. Note in Pattern 2636 the smart bodice treatment, sleeves with graceful flares, snug hip yoke and pointed seaming. Plans for the Fulton High School Alumni Association during next fall will be worked out by a committee ap-pointed at the last meeting of the club. The group is made up of Jimmy Arthur, Maxine Lindsey and Sara Cook.

22 Men Plead Guilty
In Farm Sale Riot

DENISON, Iowa. May 16.—(9)—
Civil prosecution of farm rioters at a foreclosure sale near here April 28 was concluded late today when 10 remaining defendants arrested under martial law reversed previous not guilty pleas and were accorded the same sentences given 12 who earlier pleaded guilty.

Judge Homer A. Fuller fined each 350, imposed one day's incarceration in the county jail and suspended a one-year sentence for each to the state prison.

The pleas of guilty by the 22 defendants marked the close of more than two weeks of stirring activity beginning with the riot April 28 at the J. F. Shields farm in which state agents and deputy sheriffs attempting to enforce order at the sale were attacked.

The defendants were charged with contempt of court and resisting service of a court process. The last of the national guardsmen called here after the riot will leave tomorrow.

Here's one of cont and in the morning and wear until dinner in the good old summertime.

It has no fussy bits and ends to get in the way if you are gardening or making the house attractive, etc. And should you wear it for a ramble along the shore or down some country lane, its cut will allow you nice, easy freedom.

One's mind almost naturally runs to thoughts of cottons and washing silks for such a dress. There are other materials as linens and thin woolens that are also suitable.

Yellow plaided cotton with plain yellow made the original.

Style No. 752 is designed for sizes 16, 18, 20 years, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 2 7-8 yard of 35-inch contrasting.

Tom Brumby, talented young pianist, entertained a group of musicians and friends at a musicale Monday evening in the studio of his teacher, Hugh Hodgson, in the Erlanger building. Mr. Brumby's playing is marked by a brilliance that attracts. Playing program that was taxing mentally and physically, he declared himself an artist in the offset with Scarlatti's "Sonata in A Major." In his first group of classics a highlight was the dramatic and fervent interpretation he gave to the first movement of Brahms "Sonata in F Minor."

Two Wagner transcriptions, one of the "Magic Fire Music," by Brassins, and the other of the "Love Music," from "Tristan and Isolde," by Hugh Hodgson, were among the loveliest of his selections. The last group included two Debusy numbers and three others more modern. "Claire de Lune" will remain as a vivid musical-memory of beauty. Copland's "The Cat and the Mouse" was a bit humorous rianistic cleverness.

Increase Is Shown In Output of Arts By Junior Leagues

PHILADELPHIA, May 16 .- (P)-Creative output in the culture arts by abers throughout the country has increased, delegates to the thirteenth annual convenion of the Association of Junior Leagues of America, Inc.,

This was brought out by the arts and interest committee under the di-rection of Miss Olive M. Lyford, of New York, the committee chairman.

"There also has been a growing ense of responsibility toward existing cultural organizations," Miss Lyford said. "Realizing the strain under which museums, libraries and art organizations are laboring, the Junior Leagues have offered volunteer service as well as social and financial sponsorships."

sponsorships."
Administration of finances and ways and means of raising money were subjects under discussion by the 300 dele-

gates.

Miss Lyford pointed out that the annual art exhibit of members is of higher artistic worth this year, and that it has 11 more contributors than the exhibit of 1932.

Mrs. John G. Pratt, of New Orleans, national president of the association, in her address, explained the conservative financial policy of the organization, and outlined recent ac-

organization, and outlined recent ac-tion by the board to meet the finan-

cial emergency.

She explained that temporary refunding of dues to members and the expansion of the welfare department and its work were two of the methods

and its work were two of the methods adopted to meet the present situation. A more detailed account of the financial administration was given by the national treasurer, Mrs. H. H. Armstrong, of Hartford, Conn.

A practical demonstration of the methods employed to raise money for the Leagues' welfare work was disclosed by Miss Helenka Adamowska, of Boston, director of the Children's Theater Bureau. She said the production of children's plays has proved profitable to Leagues all over the country.

The to order an inaquest.

This somewhat seerned or discovered at the autopsy which pointed to anything but death from natural causes. They have both given certificates to this effect. Therefore, sheriff, you have no crime, no criminal, and no victim."

This somewhat garbled statement had the desired effect, owing, doubtless, to its source. Fleming Stone had no intent of wrong doing; on the contrary, he was working, and rathe wanted to get back to New York, where he felt he had his work cut all. With her, Malcolm was with her, and Garth. It seemed to Stone, Gant and halk with her, but that was always with her, but the dollar of the tone, the proper was always with h

By JOHN L. COOLEY. NEW YORK, May 16 .- (A)-Stocks recaptured part of their recently lost ground today in a fairly inclusive rally. Commodities were mixed, while bonds tended toward firmness, German governments recov-

Financial circles manifested deep interest in President Roosevelt's armament message to the world, publication of which around noon found shares already on the upgrade.

Considering the market by groups, Considering the market by groups, prominence was accorded the textiles, sugars, metals, foods and alcohols. The general run of net gains was 1 to 4 points; some less active issues exceeded the upper level. American Telephone offered strong leadership, especially after one of the Bell system operating companies had declared a regular quarterly dividend. The shares finished 23-8 higher.

Allied Chemical, Celanese, American Sugar, United Fruit, Coca-Cola. Crown Cork, National Distillers and Case, closed 2 to around 4 higher. United States Steel, American Tobacco "B," duPont, and Western Union firmed a point or more. Sales aggregated \$,301,461, shares.

In foreign exchange dealings, the dollar was again favored. Stabilization of currencies is one of the goals which Mr. Roosevelt hopes to see attained at the economic conference.

Silver was stronger. Futures were up more than a cent an ounce.

Routine trade reports largely consisted of further car loadings figures. Several western roads had heavier traffic last week than a year ago.

American Metal Market's weekly steel review inferred that the rise for that industry might be moderating. Miscellaneous demand, it said, continues to nick up, but less vigorously, and there is "no further increase" in orders from the automobile industry. Railroad demand is "almost absent," while building takes little steel.

Businessmen to Form New Investment Firm

NEW YORK, May 16.—It was announced here Monday that a group of executives. all formerly of Harris, Forbes & Co., and more recently with Chase-Harris, Forbes Corporation, are forming a corporation to begin business about June 1, 1933.

forming a corporation to begin dustiness about June 1, 1933.

The corporation will transact a general investment business and will be organized by the following: John K. Starkweather, Samuel S. Rodmand and Don C. Wheaton, all of New York: Howard E. Duryea, of Philadelphia: John S. Hardin, of Baltimore; Eugene R. Black Jr., of Atlanta, and William H. Culbertson, of Buffalo.

Buffalo.

The main office of the corporation will be in New York city, with other offices located in Philadelphia, Baltimore, Atlanta and Buffalo. It is expected that the new corporation will bear the name of Mr. Starkweather, who was executive vice president of Chase-Harris, Farbes Corporation in charge of retail distribution and formerly head of the sales department of Harris, Forbes & Co.

Brokers' Views

STOCK OPINIONS.

FENNER, BEANE & UNGERLEIDER—
The market still remains under the May 11 high and from an immediate trading view-point, if that high is to be exceeded, rails and utilities should lead the way.

DOBBS & CO.—The market continues to show increased activity on strength.

BEER & CO.—We are of the opinion that the immediate market action will depend, to a large degree on international news developments.

velopments.
COURTS & CO.—Wednesday's market will
no doubt be governed by the action of
A. T. & T. directors, but even more than
this by what Hitler's attitude is as ex-

inis by what Hitler's attitude is as expressed in his speech.

LIVINGSTON & CO.—The major influence
should be found in trade news which gives
every indication of continuing favorable for
a few more weeks at least.

FENNER, BEANE & UNGERLEIDER—
Unless the address of Hitler Wednesday is
less belligerant than indicated we would not
be surprised to see prices receds somewhat
further. On the other hand, a conciliatory
gesture by him would, in our opinion, pave
the way for a resumption of the recent upward trend.

the way for a resumption of the recent upward trend.

HUBBARD BROS. & CO. TO DOBBS & CO.—We are still of the opinion that cotton should be bought on all setbacks. Liverpool July due Wednesday 5.79d.

BEER & CO.—It the government's weekly crop report Wednesday is unfavorable and the market declines, it would probably be a good time to buy, at least for a turn. COURTS & CO.—Little is being heard of inflationary tendencies of the recent legislation at the moment, but the feature is about due to again become a market factor. LIYINGSTON & CO.—We are still of the opinion that cotton bought at around present prices will show good profits.

FENNER, BEANE & UNGERLEIDER—A spirit of uncertainty and caution prevails

FENNER, BEAGE as spirit of uncertainty and caution prevails the trade, awalting some action by the vernment under the new farm law, but we lieve when such action takes place it will

be constructive.

LIVINGSTON & CO.—While profit-taking and liquidation may occasionally result in some minor recessions it is not anticipated that any pronounced weakness will develop and the class of support underlying the market should restrict reactions to very moderate recessions.

NEW YORK, May 16.—(P)—The curb market moved forward quietly on a fairly broad front today. Prices steadied after slight irregularity at the opening and the improvement gained momentum in the early afternoon. The close was but slightly under the best.

Utilities were generally strong, although a number of specialties recorded substantial gains. Advances of 1 to around 2 points were shown in such issues as Electric Bond & Share, Aluminum Co., National Sugar and A. O. Smith.

The opening was 1 to 6 points lower despite relatively firm Liverpoo cables. Early pressure seemed to comfrom Liverpool, continental and Japanese sources.

Early declines met fairly active buy ing orders from the trade, Wall Stree and western sources. Pressure also tapered off with the result that more active positions rallied about 7 to 18 points from initial levels and to ne gains of 5 or 8 points.

gains of 5 or 8 points.

The advance carried October to 8.92 and December to 9.12 but increased liquidation and southern selling caused the market to recede about 11 or 12 points from the best.

The southern selling was attributed largely to hedging against recent purchases of cotton as a result of increasing mill activity. Recent long who were said to have Mquidated on Monday's sharp reactions showed some hesitancy in re-entering the market.

Cut Directors to 36

NEW YORK, May 16—(P)—Stock-holders of the Chase National bank voted today to reduce the number of directors from 72 "to not more than 36." Albert H. Wiggin, former chairman of the governing board, who gave up his official connection with the bank some months ago, was one of the retiring directors.

Among the directors who resigned from the bank board were Alfred P. Sloan Jr., president of General Motors Corporation; Paul D. Cravath; Clarence Dillon, of Dillon, Read & Company. Tom H. Girdler, chairman and president of Republic Steel Corporation; D. M. Goodrich, chairman of B. F. Goodrich Company; Lewis Cass Ledyard Jr., Charles Hayden, of Hayden, Stone & Company, and George H. Howard, president of United Corporation.

NEW YORK, May 16 .- (P)-The ond market steadied today with the aid of further good reports from business and industry and a more hopeful outlook for the admittedly serious foreign situation following President Roosevelt's disarmament plea,

The average for 60 domestic corporate loans adged up two-tenths of a point to 72.6, another new high mark for the year. The trading volume was but a trifle larger than that of

was but a trille larger than that of yesterday, however, sales totaling only \$11,805 00°. par value.

Transactions generally were rather colorless and traders and investors apparently were still hesitant regardng the taking on of additional large

commitments.

German government obligations displayed a better feeling toward the European situation by rallying a point or more, while various Reich corpora-tion, state and municipal issues were moderately irregular. Bonds of France, Japan, Great Britain and Belgium

Japan, Great Britain and Belgium also recovered.

In the domestic sector, gainers of fractions to around 2 points included some issues of American Telephone, Baltimore & Ohio, Certain-teed, Chesapeake & Ohio, St. Paul, Chicago & Northwestern, International Telephone, Southern Railway, Western Electric and Western Union. Richfield Oil loans were up 3 to 4 points.

United States government securities were quiet but relatively firm.

RECEIVERS ARE SOUGHT FOR 3 ALABAMA FIRMS

WILMINGTON Del., May 16—(P)
Receivers for the Trustees Loan and
Guaranty Company, of Richmond, Va.,
today filed receivership suits in
chancery court against three Alabama
subsidiaries of the company.
The bills of complaint contend the
Trustees System Company of Montgomery, Inc., the Trustees System
Company of Birmingham, Inc., and
the Trustees System Company of Mobile, Inc., are heavily indebted to the

The corporation indicated the total sale would amount to a little less than three-quarter million dollars. The cotton, all held in storage in foreign locations, was sold, it was stated, so as to terminate storage and carrying charges.

Mr. Creekmore said the successful bidders would be announced later.

The remaining 2,800 hales probably will be sold privately, Mr. Creekmore said, and this disposition will end the work of the stabilization corporation which was initiated in the spring of which was initiated in the spring of 1930 when it bought 1,300,000 bales in order to "cushion the decline" of the cotton market. SOUTH CAROLINA FIRMS CULBERTSON ON CONTRACT BY ELY CULBERTSON, World's Champion Player and Greatest Card Analyst.

Creating an Entry

GREENVILLE, S. C., May 16.—
Wage increases for nearly 3,700 employes of the Dunean, Watts and Aragon-Baldwin textile mills of Greenville, Laurens, Chester and York counties were announced here today.

Ten per cent increases were announced for the 1,300 employes of the Dunean mills, of Greenville, and for the nearly 7,00 employes of the Watts mills at Laurens.

Varying increases, depending on the type of work, but described as "in line" with those made by other mills in this section, were announced for the 1,600 employes of the Aragon-Baldwin mills at Whitmire, Chester and Rock Hill.

R. E. Henry, of Greenville, president of the group of mills, authorized announcement of the increases, which will add approximately \$4,000 a week to the mills' pay rolls.

ROCK HILL MILL HIKES

Creating an Entry

The question of entries and reentries in the closed and Dummy hauds is often one upon which the success & a contract depends. Sometimes careless early play by Declarer comes back to plague him in the later rounds, and he finds impossible the completion of a contract that careful planning and perfect timing of the order in which tricks are taken would have guaranteed.

The importance of this question is illustrated by the following hand, played recently in the Experts' Room at Crockford's Club, New York.

South, Dealer.

3♥ Pass 1♠ 4NT 2♦ 3♥ Pass 6♠ Pass The bidding on the part of South The bidding on the part of South was entirely too strong. There had been no agreement upon the suits. South had only meagre support for North's heart bid, and knew nothing, except by inference, about what kind of support North had for him. North also cannot escape blame on the bidding because the Forcing Takeout has not the honor-tricks to justify it. However, let the bidding pass. The

South West North East

interest in the hand centers in the manner in which the Declarer created an additional entry-card into the Dummy.

The Opening lead was the diamond King. South won with the Ace and took two rounds of trumps, finding that he must lose a trick in the trump suit. Obviously, the Slam is a laydown if the heart suit breaks 3-2, but if there are four hearts with East, the Dummy has not sufficient entry-cards to establish the suit. However, South can create an entry in the Dummy by leading the second round of hearts from his own hand. Therefore, to the fourth trick he laid down the heart King and returned to his own hand by leading Dummy's singleton club. Both high clubs were then cashed, Dummy's remaining diamond being discarded. Next South laid down his remaining heart, winning with the Ace in Dummy, West discarding a diamond. This play was the one that decided the success of the contract. The heart 3 was now led from Dummy, and West could not prevent the making of the Slam. As a matter of fact, South ruffed with the 6 and West refused to overruff. South now led a diamond, ruffed in the Dummy, and returned to his own hand by ruffing the fourth round of hearts, establishing the suit in Dummy. West was helpless and, realizing the situation, overruffed, but the contract was safe, due to careful planning and the creation of an additional entry in the Dummy hand. philosophy, too, that will enable her to be reasonably contented and happy in spite of the adverse conditions in her life.

To be explicit, she has got to learn to accept the abuse her husband gives her when she buys what he thinks unreasonable. She has got to learn to hold her tongue and to refrain from entering into any argument with him as to her right to spend her own money when and how she chooses. She must continue to be sympathetic with his embarrassment over not being employed and pitiful toward him in his inability to find work. She must, if she is to be happy and contented, enjoy him when he is pleasant and ignore him when he is disagreeable. This can be done. The proof lies in the fact that some women have done it successfully.

WILLIAM J. CHAPPELL.

William J. Chappell, 67, of 16 Georgia avenue, S. W., died unexpectedly Tuesday afternoon at the residence. Three sons, W. R., L. R. and C. R. Chappell; a daughter, Mrs. James Johnson, and a brother, S. P. Chappell, all of Atlanta for 36 years. Puneral arrangements will be announced by Sam Greenberg & Co.

NEW YORK. May 16.—Raw sugar was quiet today and although no sales were reported, refiners showed a little more increase at last-paid prices for spot, or 3.30. Futures recovered early losses and closed 2 to 3 points net higher on active positions.

Renewed expectations of the enactment of the Cuban allotment plan seemed to check selling pressure. There were early losses of 2 to 3 points under ligidation and local selling promoted by the inactivity in the spot market.

September contracts which sold early at 135 railed to 140, while January railed.

MRS. SAM V. SEVIER.

Mrs. Sam V. Sevier, 39, of 215 Howard street, Decatur, died Tuesday morning at the residence. She is survived by her husband; a son, Sam V. Sevier Jr., and five sisters and two brothers. The funeral will be conducted at 10 o'clock Thursday morning at the residence, with Dr. D. P. McGeachy officiating. Burial will be in the Decatur cemetery. Awtry & Lowndes are in charge.

JAPANESE ADVANCE THOUGHT NEAR END

Drive on Tientsin Expected To Be Halted by Agreement.

TIENTSIN, China, May 16 .- (A)-The arrival in North China of General Hwang Fu, representative of the Nanking government, who is reputed to be quite friendly toward Japan, has led to the belief that the Japanese invasion south of the Great Wall is nearly finished.

General Hwang's coming has produced a distinct change in the political atmosphere in this area, where it is

duced a distinct change in the political atmosphere in this area, where it is believed that the new spokesman from Nanking may make an arrangement with the Japanese which will result in the halting of the army's westward drive.

This interpretation is connected with the statement issued by the Japanese military commander in Manchuria, Field Marshal Nobuyoshi Muto, yesterday.

The Japanese, said the field marshal, would withdraw their forces as soon as the Chinese give proof that they will stay away from the Great Wall, which is the southern frontier of Manchukuo.

The suggested arrangement or compromise which General Hwang may negotiate would provide that the Chinese avoid the frontier of the new state and that a new Chinese regime at Peiping would be permitted to function for the time being at least under the authority of Nanking.

Certain military factors appeared to support the belief that a cessation of hostilities is in prospect.

Chinese reports say that Nanking troops north of Peiping are withdrawing and that the withdrawal is likely to continue as far south as the Kinhan railway. Northeast of Tientsin the Chinese are believed to be in no position to oppose the Japanese advance.

North of Peiping and east of Tangshan the Japanese appear to have reached their objectives and their attacks are expected to cease soon.

DEFENSE "LAST STAND"

DEFENSE "LAST STAND"

EXPECTED AT TOKYO
TOKYO, May 16.—(4)—The conviction that Chinese forces in north
China, now said to be in disorderly
retreat, are making strenuous preparations for a "last stand," on a line approximately 13 miles east of Peiping,
was reflected in Japanese dispatches
from the war zone today.

This defense line, according to Rengo (Japanese) agency reports, would

go (Japanese) agency reports, would extend through Tungchow, Shunyi and Roosevelt Is Unable

To Open World's Fair WASHINGTON, May 16.—(P)—
President Roosevelt decided today it would be impossible for him to attend the opening of the World Fair at Chicago on May 27.

He asked Vice President Garner to go in his place.

Minnesota Moratorium Held Unconstitutional

MINNEAPOLIS, May 16.—(P)—Minnesota's new mortgage moratorium act was held unconstitutional today by District Judge Arthur W. Selover.

The law was enacted last month to case the hurden of mostgages.

ST. LOUIS, May 16 .- (P)-The St. Louis-San Francisco (Frisco) rail-road filed a debtor's petition in fed-eral court today, stating it was un-able to meet its current and maturing obligations and asking permission to submit a reorganization plan. The road has been in federal receivership since last August.

FOR ISLAND POSITION WASHINGTON, May 16.—(P)—Robert Hayes Gore, of Florida, will be the new governor of Puerto Rico. He was confirmed yesterday by the senate, without debate.

Richard Buchanan, of Forsyth; two brotiners, John A. Spear, of Atlanta, and G. F. Spear, of Winter Garden, Fla., and two sisters, Mrs. Henry Gordon, of Atlanta, and Mrs. Millie Bradley, of Dublis, Ga. Arrangements for the funeral will be announced by the J. Austin Dillon Company.

MISS ARLINE VICKERS.

Miss Arline Vickers, about 20, of Douglas, Ga., died late Tuesday afternoon at
an Atlanta hospital following an operation several weeks ago. The body was
taken Tuesday night to Douglas for vaneral and interment by H. M. Patterson
& Son. She is survived by her mother,
Mrs. Hiram Vickers; three sisters, Mrs.
Dalton Bailey, Miss Eugenin and Miss RelaVickers; four brothers, Raymond and Claytion Vickers, all of Douglas; Manhburn
Vickers, of Jacksonville, Fla., and Bernard
Vickers, U. S. N., of Norfolk, Va.

The pinhead natives threw themselves on the ground with little gibbering cries of terror. "Speak to them," Parker commanded Riano. Riano started a few sentences in Swahili. There was a look of unchanging malice on the pigmies' faces but no gleam of understanding.

INTO TRADE CHANNELS

Bills, Salaries Paid Out; Tax Collections Rise Despite Assessment Cut.

The municipality will have distributed about \$1,000,000 in Atlanta trade channels by the end of this week, it was anneunced Tuesday as the first favorable financial reports in recent months came from the city hall.

A total of \$280,000 will be paid banks today for retirement of the scrip issued to meet February salaries of employes. Approximately \$150,000 was distributed to Atlanta merchanta Tuesday for payment of merchandise bought in January and February. The 4,000 employes Saturday will receive on time the halfmonth pay rolls, totaling \$175,000. Last Saturday tenchers were paid \$190,000 for April services, and more than \$200,000 was given merchants on last year's bills.

Tax collections this year through May 15 totaled \$1,130,425 as against \$1,120,250 for the same period last

\$1,120,250 for the same period last year, despite a decrease in assess-

ments.

Mayor James L. Key attributed the increased collections to improved business conditions and a desire on the part of citizens to co-operate with the municipality.

TECH STUDENT COUNCIL TO INSTALL OFFICERS

New officers of the student council at Georgia Tech, including six Atlantans, will be installed next Tuesday night at Brittain Hall, along with I. L. Kuniansky, of Atlanta, editor of Technique; J. A. McFarlane, of Aberdeen, Miss., president of the student Y. M. C. A., and Paul Brown, of Louisville, Ky., president of the interfraternity council.

Successful candidates in the election held Monday on the campus were Wink Davis, of Atlanta; Chick Galloway, of Greenville, S. C.; Ben Mattingly, of Atlanta; Howard Tellep

Air-Cooled and 6-Ply

De Luxe

TIRES

In spite of recent price increases we must reduce our stock of Seiberling Air-Cooled and 6-ply De Luxe Tires. Here's your chance to pick up a real bargain in Seiberling's finest tires—with 6-ply tires at about the old 4-ply prices. You'll save from 25 to 50%. Better stop in and let us show you these superb tires during our Spring Clearance Sale.

12-15 Months' Protection

The big difference between Seiberling Protection and the usual tire "Guarantee" is that your investment in Seiberlings is absolutely protected from 12 to 15 months against all road hazards—cuts—breaks and bruises. The ordinary "Guarantee" covers only werkmanship and materials, with the dealer the judge and jury. Insist on Seiberling Protection. It may save you much money.

night at the Glenn Memorial auditorium. It will be the only appearance together of the orchestra and glee club and has been arranged as a brilliant presentation, according to Dr. Malclm H. Dewey, director of the group. The concert will open with lilting Mozart scores and proceed through the heavier arias of Handel and Wagner. The orchestral number will be interspersed with vocal numbers by Miss Minna Hecker, Robert Blackwell and Richard Smoot.

Another feature of the presentation will be a group of negro spirituals and Russian folk songs. Religious airs also will be interpreted and various instruments will be featured, including the harp and organ. The concert will end with the singing of the famous "Pilgrim's Chorus." The public was cordially invited to attend.

Upturn Dates From Abandonment of Gold Standard, Virginian Asserts.

(P)-Colonel Henry W. Anderson, of Richmond. Va., in an address tonight said the turning point of the depres-sion was reached when America abandoned the gold standard, checked abandoned the gold standard, checked deflation and adopted the policy announced by President Roosevelt of restoring the domestic price level of commodities and services upon a just and equitable basis.

"Some of the beneficial results are already manifest in the rising commodity prices and the substitution of hope for despair," Colonel Anderson said.

and equitable basis.

"Some of the beneficial results are already manifest in the rising commodity prices and the substitution of hope for despair," Colonel Anderson said.

"If this policy is carried out through a wise management of the currency, as I believe it will be, then we may look forward to a gradual but sure restoration of business prosperity, the end of abnormal unemployment, and the prompt solution of the problems now confronting our farmers, our railroads and other branches

ENTRAPMENT" VICTOR

ASHEVILLE, N. C., May 16.—(47)
C. V. Sorrells, of Asheville, whose defense of "entrapment" in a previous liquor case won him a new trial from the United States supreme court, today entered pleas of guilty to several prohibition violation charges and was sentenced to prison.

The charge on which he appealed to the supreme court, however, was nolle-prossed with leave.
